# WALDEN GAGE DISTRIBUTION

Walden Gage Distribution is the last supplier you will ever need for any and all of your Quality Departments needs. With Walden Gage you gain access to a highly qualified group of manufacturers, distributors and laboratories eager to provide you with the kind of information, products and services that will help you stay ahead of the competition. As a client of Walden Gage you will benefit from some of the following:

## *Friendly and Knowledgeable Staff...*

At Walden Gage each of our representatives has an average of 20 years of experience working in and servicing the quality industry. We have built our reputation on providing our clients with access to the nations top machinists and engineers. This allows us to offer a conduit to the kind of “old school” knowledge and skill that have provided the foundation for many of the manufacturing policies and procedures you utilize today.

## *Quality You Can Trust...*

We know how high you set the standards for your product. We expect nothing less from our suppliers as well. We require all our resources meet ASTM requirements and maintain NIST traceability. Our calibration facility meets or exceeds the standards set forth by A2LA, A-CLASS, IAS & NVLAP providing your quality department with the kind of tractability the most demanding clients require you to maintain.

## *Competitive Pricing, Expedited Delivery...*

As a distributor we utilize our purchasing power to the benefit of our clients. Due to the sheer volume of orders we process our suppliers provide us with many “perks” such as discounted pricing and “front of the line” services. All of which we pass along to our clients. This guarantees you are getting a fair price on a quality product with the fastest possible delivery.

## *We will adapt to meet your requirements...*

One thing that that separates Walden Gage from your other suppliers is the fact that we don't just want your business, we want to EARN IT! Customer service is an art form that is rapidly becoming a scarcity in this day and age. Here at Walden Gage we strive to have our clients consider us a true asset to their quality department and that status is achieved by providing so much more than just a product or a service. Tell our representatives what your current supplier is lacking and in short order you will find Walden Gage at the top of the list for all of your quality departments requirements.
